SENTIER DES CAIRNS

Sentier des cairns in Chaux-du-Dombief :

Walking path through the pastoral landscape of Jura with superb views throughout the route, the trail is completely marked by more than 100 cairns built along the path.

It borrows old passages of cattle grazing the few small spaces among the rocky landscape which borders la Chaux upstream of the village.

A first place allows a moment of relaxation under a "task" of "foyards"(european beech), the trail then leads to a first belvedere with a bench of rest and contemplation, then a second, more widely open to an exceptional panorama (with a small platform and a solid wood bench).

Contemplate the range of the Monts Jura from the Mont Rond at the end of the Grand Crêt d'eau with the Crêt de la neige, the highest point of the Jura Massif and the Crêt de Chalam in the background.

Then the massifs of Dôle, Noirmont, Risoux, Risol reveal the Alps and Mont Blanc. Then the view is on Chatelblanc, Mount Suchet in Switzerland, Mont Dore in Métabief and further north, the gap of Chalesmes. The imposing Massif of the Pic de l'Aigle appears just opposite with the lake of Ilay and the village of Frasnois below. Far off the Mont Rivel (Champagnole) the wind turbines of Chamolle all recent, the coast of the Heute ...

SIGNALER UN LYNX EN DANGER

Every year in the Jura Massif, lynx in difficulty are observed near housing area or human activities. This poses both a problem of conservation of the species and public safety....
